# CITY OF SAN DIEGO, CALIFORNIA CAPITAL IMPROVEMENTS PROGRAM

TITLE: Miramar Pump Station Expansion

NO. 9-31

COMMUNITY PLAN AREA : Miramar Ranch North COUNCIL DISTRICT DEPARTMENT/DIVISION : Water Utilities NO. INITIAL SCHEDULE ENGINEERING/CONSTRUCTION(D,C)=140,000 TOTAL FUNDING BY SOURCE REVENUE SOURCE FY 1989 1993 1995 1996 1990 1991 1997 140,000 Developer 140,000

TOTAL COST \$ 140,000 (FY '89 DOLLARS) D,C 140,000

Description: Expansion of the existing pump station and construction of a portion of the water system to serve the entire community.

Justification: Provision of potable water for domestic, commercial, and industrial users.

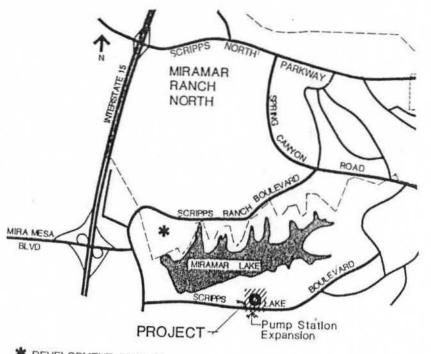

Relationship to Community Plan: The water system is required in order to develop land in the Miramar Ranch North Community Plan area.

Scheduling: 1990, requirement of TM for development area 33.

Cost Breakdown: Costs for all components of construction were calculated based on the engineer's estimate. This improvement is subject to participation and/or reimbursement agreements.

## Notes:

- Engineering and construction includes 25% for contingencies and incidentals.
- (2) A reimbursement agreement that includes water facilities in the Miramar Ranch North area currently exists. If an assessment district is the selected method to finance this Facilities Plan project, it will be necessary to first modify the existing reimbursement agreement (Scripps Mesa Vista Locality Water Reimbursement Agreement, Doc. No. C02429).

TOTAL COST \$ 420,000	(FY '89 DOLLARS)			420,000						

Description: Construction of a fenced, paved channel approximately 3,300' in length and sewer.

Justification: Interception of urban runoff to avoid contamination of the domestic water supply in the Miramar Reservoir. Design has been completed and approved by the City Engineer, however, aesthetics may necessitate redesign.

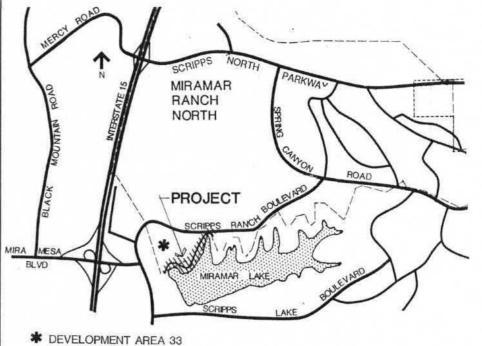

Scheduling: 1991, requirement of TM for development area 33.

Relationship to Community Plan: The Miramar Ranch North Community Plan indicates that protection of the water supply is a key concern.

Cost Breakdown: Costs for all components of construction were calculated based on the engineer's estimate. This estimate does not include earthwork.

#### Notes:

Engineering and construction includes 25% for contingencies and incidentals.

				D,C						
TOTAL COST \$ 1,900,000	(FY '89 DOLLARS)			1,900,000						

Description: Construction of a 15" to 18" sewer line off-site from Scripps Ranch Boulevard within Mira Mesa Boulevard then Black Mountain Road to intercept the Penasquitos Trunk.

Justification: Sewer service is required for development of residential, commercial, and industrial properties in the Miramar Ranch North community.

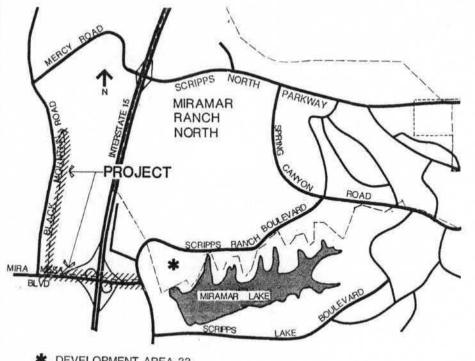

Relationship to Community Plan: Sewer facilities provide a basic service to support the residential, commercial, and industrial land uses approved with the Miramar Ranch North Community Plan.

**Scheduling:** The south sewer line is needed to serve development area 33 and is scheduled in 1991, however, it may be constructed as early as 1989.

Cost Breakdown: Costs for all components of construction were calculated based on the engineer's estimate. This improvement is subject to participation and/or future or existing reimbursement agreements.

### Notes:

Engineering and Construction includes 25% for contingencies and incidentals
